SKILLS

EDUCATION

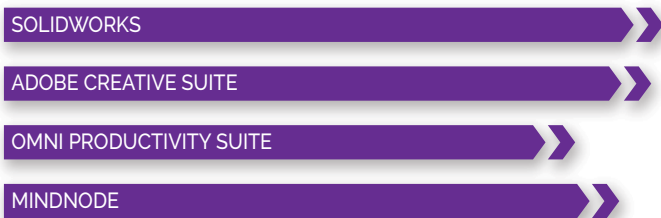

Metropolitan State College

Denver, CO \ \ \ Industrial Design | 2007-2010

Westwood College of Technology

Denver, CO \ \ \ Architecture Design | 1998-2000

SOFTWARE

INTERESTS

Architecture \ Automation \ Biking \ Biological systems \ Camping \ Computer graphics \ Concept sketching \ Jeeps \ Legos \ Military technology \ Motion graphics \ Music \ Nature documentaries \ Painting \ Photography \ Portable Computing Devices \ Sci-Fi movies \ Sculpture \ Tinkering \ Tools \ UAV's

WHAT AM I?

Analytical \ Conceptual \ Decisive \ Deliberate \ Determined \ Direct \ Driven \ Future-focused \ Intellectual \ Introspective \ Objective \ Self-confident \ Strategic \ Tenacious \ Theoretical

PROFESSIONAL EXPERIENCE

Designer | 2012-Current \ \ \ Droid Replicator, Westminster, CO

- Help clients design products for mass manufacture
- Sketch design solutions and conceptual artwork for projects
- Create models to facilitate the transition between design and engineering
- Advise on the feasibility of projects such as material selection, equipment selection, and practicality
- Photograph products for marketing collateral
- Create technical documentation for assembly, use, and care
- Assist with various IT related issues and requests

Design Engineer | 2015-2016 \ \ \ Kodo kids, Broomfield, CO

- Sketch design solutions & conceptual artwork for projects
- Create prototypes for feasibility testing
- Design & facilitate development of a product life-cycle application
- Create an organizational wide data flow
- Create technical documentation
- Desktop & network support
- Photograph products for marketing collateral

Tech / Designer | 2012-2015 \ \ \ coldquanta, Boulder, CO

- Design & manufacture components within a set of parameters
- Design an electronics enclosure & GUI for an embedded system
- Sketch design solutions & conceptual artwork for projects
- Experiment & develop methods for precision machining of silicon
- Photograph products for marketing collateral
- Design large format to small scale marketing collateral
- Train personnel in software and equipment
- Create technical documentation
- Desktop & network support

Product Designer | 2010-2012 \ \ \ Magpul industries, Erie, CO

- Design products within a set of written and spoken parameters
- Submit project proposals to business development team
- Sketch design solutions & conceptual artwork for projects
- Create prototypes for feasibility testing
- Operate high-speed camera equipment
- Program computer controlled Juki AMS-210EN for production sewing
- Software & Equipment Instructor
- Develop an organization product design process
- Create illustrations for both marketing collateral and patent filing
- Desktop & network support

Detailer/Network Admin. | 2003-2009 \ \ \ Steelbuilt Corporation, Northglenn, CO

- Create construction blueprints for pre-engineered metal buildings
- Compile BOMs for job costing and component procurement
- Create technical documentation
- Create architectural renderings for marketing collateral
- Desktop & network support
- Develop software installation packages for end users
- Software & Equipment Instructor
- Manage remotely operated IP telephony equipment
